berless Armenian farm houses have been burned. Conditions are most unsanitary and dysentery is appearing. Emergency hospitals here contain 300 patients suffering from wounds, many of whom are women. The average number of wounds to each patient is four. There is great and immedfate need for food and medical supplies. Practically the entire Armenian population of Adana, is homeless

food supply in the shops is exhausted. Some of the wounded Armenian woen have told Miss Wallace, an English nurse who is caring for them, that they were shot by the Moslems because they screamed when they saw their husbands killed before their eyes. Many Armenian girls were carried off by the Turks as booty. A large number of mutilated bodies have

been found in the houses of the city. During the first five days of the dis- | of Japan's garrisons and policemers, while fighting, killing and plun- | along the Antung-Mukden railwa dering was going on, on all sides, the Consul General Coike in Mukden r Vali Agal kept the Turkish troops in juses to entertain that demand, government houses, day and night, under guard.

In addition to killing the men, the Moslems carried off women and children for slaves. This communication is from Stephen B. Trowbridge a missionary of the American board of commissioners for foreign missions. It probably is dated

April 27. The despatch is as follows: "The fighting, which began again in Adana Sunday night, has continued for two days. A terrible fire is destroying the Christian quarters of Adana, and an effort is being made to stamp out the Armenians. The local officials refuse to furnish us with a sufficient guard. No attempt has been made to put out the fire. The Vali and the other Turkish officials are showing the most criminal indifference.
